Supported by:

reTHINK is a Travelling Conference with focus on the topic **CFRP - Recycling and Sustainability**. The Conference comprises three individual one-day events taking place in the southeast-asian countries Thailand, Malaysia & Singapur.

Who is invited?

Anyone who is involved or interested in recovery of CFRP-waste, no matter if production scrap or end-of-life-waste. This includes national companies, research institutes and network managers in economy, news or politics.

What do we offer?

Several technical lectures brought forth by the german experts give a guideline for scientific exchange, but besides that there will be enough time for individual discussions. Our aim is to identify different possibilities for international cooperations and technology transfer, so that changing waste streams can be transformed from environmental problems into value generating business models on a global market.

Program

- 10:00 Opening
- 10:15 Welcome Coffee
- 10:30 Keynote: „Recycling of CFRP – Chance or Restriction?“
- 11:00 “Near-net-shape fabrication-technologies for CFRP“
- 11:30 ELG Carbon Fibre Ltd.
- 12:00 “Processing Routes for recycled Carbon Fibres“
- 12:30 Lunch-Break
- 14:00 “Characterisation of recycled Carbon Fibres“
- 14:30 Textechno Herbert Stein GmbH & Co.KG
- 15:00 “Holistic View on state-of-the-art recycling technologies“
- 15:30 Conclusion and end of the presentations
- 15:45 Networking and B2B-Talks
